

Christian S. Calvo

Data Analytics | Business Intelligence | Operations Reporting

Phoenix, Arizona | christianscalvo@gmail.com | 520-660-7884 | www.christianscalvobi.com | [LinkedIn](#)

Professional Summary. Business intelligence and operations reporting candidate with hands-on laboratory operations experience and practical Power BI, Snowflake, Python, SQL, and KPI reporting work. Experienced in transforming operational data into dashboards, executive reports, and management recommendations focused on turnaround time, SLA performance, sample flow, bottlenecks, and financial performance.

Certification and Portfolio

Microsoft PL-300: Power BI Data Analyst Associate

In Progress

Power BI | Data Modeling | DAX | Data Visualization | BI Reporting

Portfolio: www.christianscalvobi.com

Mining Laboratory Dashboard | Financial Consolidation Dashboard

Technical Skills

Languages & Tools

Python, SQL, LaTeX, Excel

Platforms

Power BI, Snowflake, StarLIMS reporting data

BI & Modeling

DAX, data modeling, reporting views, KPI dashboards, executive reporting

Analytics

ETL logic, data transformation, SLA analysis, bottleneck analysis, trend analysis

Business Reporting

Executive summaries, findings reports, root cause identification, management recommendations

Professional Experience

Laboratory Technician III

April 2023 – Present

Freeport-McMoRan

Miami, Arizona

- Perform analytical testing and laboratory operations supporting metallurgical processes, production support, operational standards, and data accuracy.
- Developed KPI tracking for turnaround time, SLA/on-time performance, lateness severity, sample flow, backlog indicators, and operational bottlenecks.
- Designed Snowflake reporting views and structured StarLIMS data into analysis-ready datasets aligned with operational business logic.
- Built Power BI dashboards for sample volume, lab performance, bottleneck visibility, and operational trend analysis across laboratory functions.
- Created executive-level KPI reports using LaTeX, combining trend analysis, root cause identification, findings, and actionable recommendations.

Private Tutor

September 2020 – February 2023

Physics, Mathematics, and Chemistry

Málaga, Spain

- Tutored high school students in STEM subjects, explaining technical concepts, quantitative reasoning, and problem-solving methods in clear, structured terms.

Featured Portfolio Projects

Mining Laboratory Performance Dashboard

Power BI | Operations Analytics | Python | KPI Reporting

- Built an operations analytics dashboard focused on sample workload, turnaround time, SLA compliance, re-runs, pending samples, and bottleneck analysis.
- Modeled KPI definitions and reporting logic for management visibility into workload stability, late samples, XRF-supported workflow pressure, and targeted review areas.

KOA Campgrounds Financial Consolidation Dashboard

Power BI | Financial Reporting | DAX | Budget vs Actual

- Built a multi-entity financial reporting dashboard covering revenue, expenses, net profit, margin, budget achievement, YoY/YTD analysis, and executive reporting.
- Designed consolidated reporting logic for entity-level comparison, revenue account performance, budget variance review, and leadership-facing financial insights.

Additional Project Experience

Laboratory KPI Reporting System: Built an end-to-end reporting workflow integrating Snowflake, Python, Power BI, and LaTeX for recurring performance reviews.

Monthly Composite Analyte Forecasting Tool: Developed a forecasting tool to model expected analyte ranges, identify deviations, reduce manual review effort, and improve anomaly detection.

LIMS Operations & Data Enablement: Supported StarLIMS operations, data integrity, workflow documentation, and prototype tools for inventory tracking and barcode-based process improvement.

Education

Electrical Engineering

Universidad de Málaga | Málaga, Spain

Completed 3 years out of 4

High School Diploma

Leopoldo Queipo IES | Melilla, Spain
